“

Thank you for giving me the opportunity to improve and add to my skills, which will give me a good start towards finding a job.

It was a wonderful opportunity that many people find difficult to access. I would also like to express how grateful I am to have received so much love, encouragement, and support. Thank you for believing in me and investing in my future.

ECONOMIC ACTIVITY

The economic activity rate of FCD beneficiaries is one of the **key indicators of FCD's success**. In order to achieve this, the organisation relies heavily on partnerships with business and industry. With the **current youth unemployment rate averaging over 60%** and the unfavourable economic climate, this remains a challenging task.

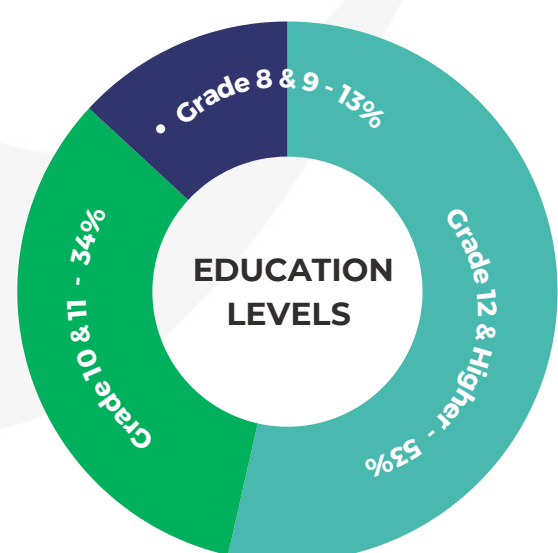

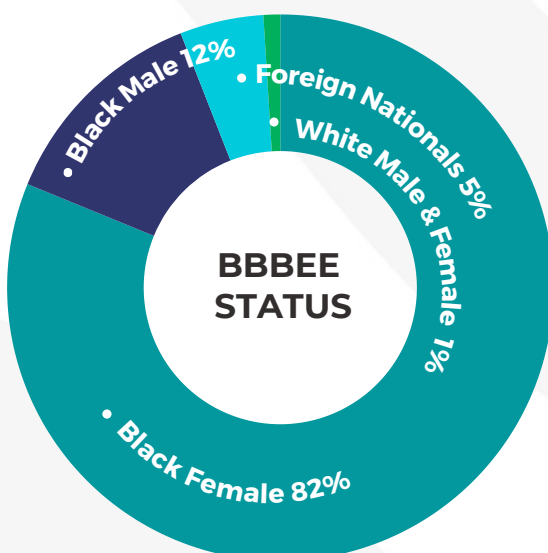

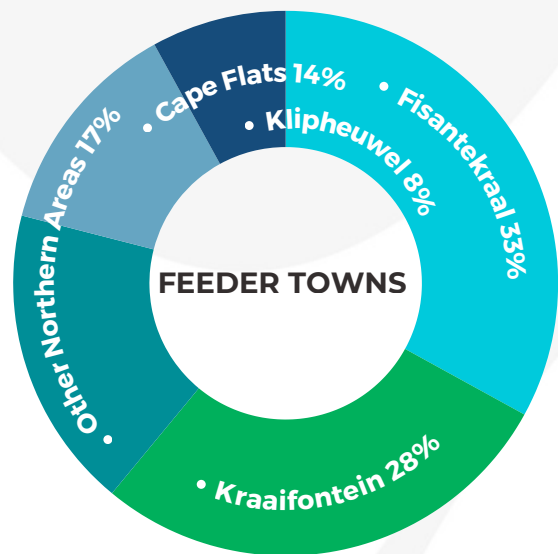

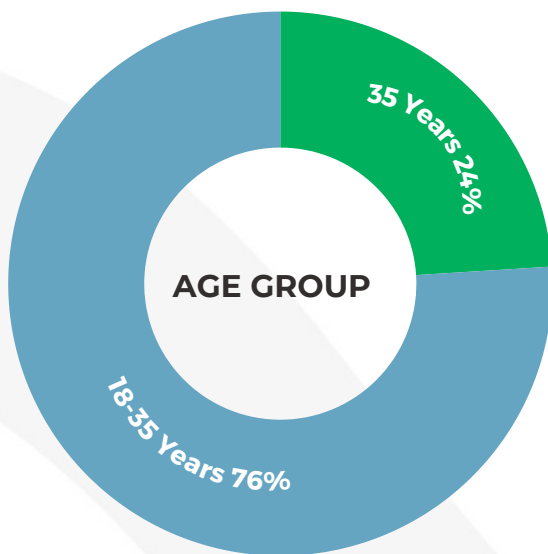

“Since finishing the FCD programme I got a position as a nail technician at Sorbet, Groot Pheasantekraal.

I am loving it and I am even going on training for Sorbet products soon. The course gave me such a strong foundation and I am so grateful for everything FCD taught me.

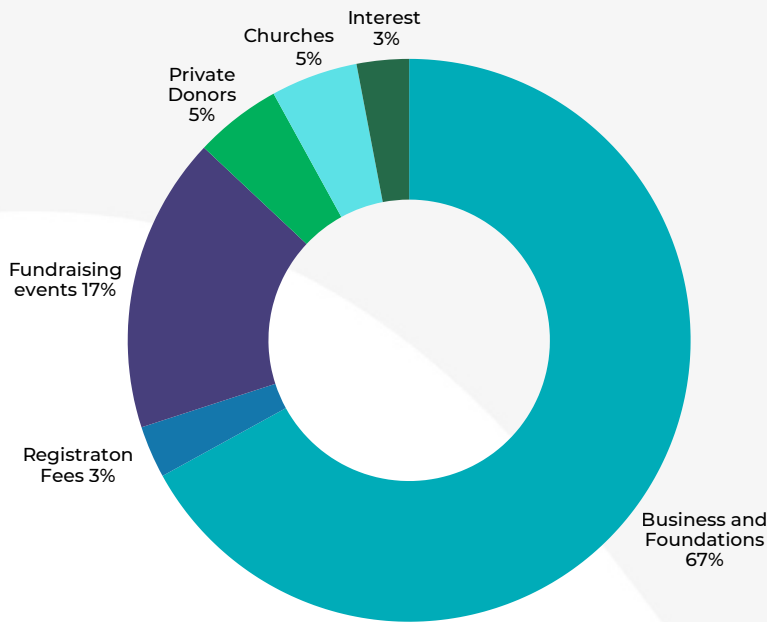

I am excited to keep growing!
